FULL STACK DEVELOPER

Angular · React · Node.js · Flutter · QA & Performance Testing

PROFILE

Full stack developer with 3+ years of experience building scalable web and mobile applications. Specialized in Angular, React, Node.js, and Flutter, with proven expertise in quality assurance and performance testing. Passionate about delivering high-quality software through clean, documented code and rigorous testing.

PROFESSIONAL EXPERIENCE

E&M TECHNOLOGIES

Apr 2025 – Present

Angular · TypeScript · Flutter · JMeter · Grafana

- Delivered frontend applications using Angular and TypeScript for the YouthLink platform.
- Developed cross-platform mobile apps with Flutter, including a multi-tenant Dairy Collection system for NCBA Bank.
- Led testing automation initiatives using JMeter and Grafana for performance and load testing.

DEVEINT LIMITED

Jun 2024 – Mar 2025

QA Engineering · Test Automation · Documentation

- Conducted quality assurance testing for Bidco's Supply Chain Financing system.
- Wrote technical documentation and user manuals to improve system accessibility.
- Helped establish QA best practices and testing protocols across teams.

EDUCATION

B.Sc. Applied Computer Science

2020 – 2024

Daystar University – Athi River, Machakos

CCNA 1 Certification

2022

Cisco Academy – Athi River, Machakos

MIT Boot Camp – Web & Mobile App Development

2020

eMobilis Mobile Technology Institute – Westlands, Nairobi

HTML/CSS/Bootstrap, PHP, JS, Python, MySQL, Git/GitHub basics, Android/Kotlin/Java

KEY PROJECTS

PROFESSIONAL WORK

YOUTHLINK PLATFORM | E&M Technologies

Angular · TypeScript · Node.js

- Built a youth engagement and recruiting platform linking career seekers with jobs and internships, with a responsive frontend and seamless backend integration.

NCBA DAIRY COLLECTION SYSTEM | E&M Technologies

Flutter · Java Spring Boot

- Built a multi-tenant mobile app for dairy collection management, with a scalable architecture supporting multiple cooperatives simultaneously.

BIDCO YOFINVOICE | Deveint Limited

QA Testing · Documentation

- Ran end-to-end QA testing for an enterprise supply chain financing platform, identifying and tracking critical bugs ahead of deployment.

NUMERAL TECH ACADEMY UI/UX | Deveint Limited

HTML5 · CSS3 · JavaScript

- Designed and implemented intuitive interfaces for an education technology platform, focused on improving learner engagement.

PERSONAL & ACADEMIC

DECENTRALIZED REAL ESTATE APP | Final-Year Project

React · Solidity · Ethereum · Web3.js

- Implemented secure property purchase and sale mechanisms via Ethereum smart contracts for transparent real estate transactions.

FARMERS FORECAST | Personal Project

React · Vite · WeatherAI API · Gemini

- React weather dashboard for Kenyan farms with real-time conditions, 7-day forecasts and AI-generated planting and harvest summaries.
- Quick-access locations for Nairobi, Kisii, Bomet and Kericho, with saved favourites.

MEDIA CONVERTER | Personal Project

TypeScript · React · Node.js

- Universal converter for YouTube videos, playlists and local files, plus document conversion across PDF, PPTX, XLSX and DOCX.

MOBILE MEDIC | Personal Project

Kotlin · Android Studio

- Telemedicine Android app connecting patients with doctors for remote diagnosis, with an intuitive patient-doctor UI/UX.

HTTP UPTIME MONITORING TOOL | Personal Project

Node.js · JavaScript

- URL monitoring system for tracking website availability, with automated alerts and performance tracking.

NES PERSONAL PORTFOLIO | Personal Project

React · Vite · nes.css

- Retro NES-styled portfolio site framed as a Super Mario world map.
