SKILLS

Languages
Python, Go, Java, TypeScript, JavaScript, SQL

Frontend
React, Next.js, Angular, Svelte, Tailwind CSS

Backend & Mobile
Node.js, Express, Spring Boot, Django, Flutter, React Native

Databases
PostgreSQL, MongoDB, MySQL, Redis

Cloud & DevOps
AWS, GCP, Docker, Kubernetes, GitHub Actions, Jenkins

DevOps & Testing
Docker, Kubernetes, Git/GitHub, GitHub Actions, Jenkins, CircleCI, JMeter, Grafana, QA Engineering, Test Automation, Selenium, Postman

AI & Machine Learning
PyTorch, TensorFlow, scikit-learn, OpenCV, Pandas, NumPy

CERTIFICATIONS

CCNA 1 – Cisco Academy (2022)

LANGUAGES

English
Kiswahili

FULL STACK DEVELOPER

Angular · React · Node.js · Flutter · QA & Performance Testing

PROFILE

Full stack developer with 2+ years of experience building scalable web and mobile applications. Specialized in Angular, React, Node.js, and Flutter, with proven expertise in quality assurance and performance testing. Passionate about delivering high-quality software through clean, documented code, rigorous testing, and continuous improvement.

KEY PROJECTS

YouthLink Platform

E&M Technologies

Angular · TypeScript · Node.js

- Built a youth engagement and recruiting platform linking career seekers with jobs and internships.
- Delivered a responsive frontend with seamless backend integration.

NCBA Dairy Collection System

E&M Technologies

Flutter · Java Spring Boot

- Built a multi-tenant mobile app for dairy collection management.
- Implemented a scalable architecture supporting multiple cooperatives simultaneously.

Bidco Yofinvoice

Deveint Limited

QA Testing · Documentation

- Conducted end-to-end QA testing for an enterprise supply chain financing platform.
- Identified and tracked critical bugs ahead of deployment.

Farmers Forecast

Personal Project

React · Vite · WeatherAI API · Gemini

- Built a React weather dashboard for Kenyan farms with real-time conditions, 7-day forecasts, and AI-generated summaries for planting and harvest decisions.
- Added quick-access locations for Kenyan farms (Nairobi, Kisii, Bomet, Kericho) with saved favorites.

Media Converter

Personal Project

TypeScript · React · Node.js

- Universal media converter for YouTube videos, playlists, and local files, plus document conversion across PDF, PPTX, XLSX, DOCX.

NES Personal Portfolio

Personal Project

React · Vite · nes.css

- Retro NES-styled personal portfolio site framed as a Super Mario world map.

Decentralized Real Estate App

Final-Year Project

React · Solidity · Ethereum · Web3.js

- Implemented secure property purchase and sale mechanisms via smart contracts on Ethereum, for transparent real estate transactions.

Mobile Medic

Personal Project

Kotlin · Android Studio

- Telemedicine Android app connecting patients with doctors for remote diagnosis, with an intuitive UI/UX for patient–doctor interactions.

Numeral Tech Academy UI/UX

Deveint Limited

HTML5 · CSS3 · JavaScript

- Designed and implemented user-friendly, intuitive interfaces for an education technology platform, focused on improving learner engagement.

HTTP Uptime Monitoring Tool

Personal Project

Node.js · JavaScript

- A URL monitoring system for tracking website availability, with automated alerts and performance tracking.

EDUCATION

B.Sc. Applied Computer Science Daystar University – Athi River, Machakos	2020 – 2024
CCNA 1 Certification Cisco Academy – Athi River, Machakos	2022
MIT Boot Camp – Web & Mobile App Development eMobilis Mobile Technology Institute – Westlands, Nairobi	2020

PROFESSIONAL EXPERIENCE

E&M Technologies ● Delivered frontend applications using Angular and TypeScript for the YouthLink platform. ● Developed cross-platform mobile apps with Flutter, including a multi-tenant Dairy Collection system for NCBA Bank. ● Led testing automation initiatives using JMeter and Grafana for performance and load testing.	<i>Apr 2025 – Present</i>
Deveint Limited ● Conducted quality assurance testing for Bidco’s Supply Chain Financing system. ● Wrote technical documentation and user manuals to improve system accessibility. ● Helped establish QA best practices and testing protocols across teams.	<i>Jun 2024 – Mar 2025</i>
